

CHARIZA MAE B. MANINGO

Isabel, Leyte, Philippines | +63 915 459 8136 | maningocm@gmail.com | linkedin.com/in/maningocm

PROFESSIONAL SUMMARY

Mechanical Engineering graduate with DOLE-BWC BOSH II certification, hands-on maintenance experience from a motorpool internship, and two consecutive terms as Auditor for a student council. Applies systematic HIRAC methodology, technical documentation, and data verification to deliver accurate, audit-ready outputs. Proficient in Microsoft Office, Google Workspace, Excel, and AutoCAD. Seeking entry-level roles in maintenance, safety, quality assurance, or technical documentation.

CORE COMPETENCIES

Engineering & Maintenance Support • Workplace Safety & OSH • HIRAC & Risk Assessment • Hazard Identification • Technical Documentation • Records Management • Data Entry & Verification • Report Preparation • Administrative Support • Project Coordination • Quality & Accuracy Checking • Microsoft Excel • Google Workspace • AutoCAD

PROFESSIONAL EXPERIENCE

Mechanical Engineering Intern

July 2025 – August 2025

Garcia Group of Companies Inc. – Motorpool Department, Ormoc City, Leyte

- Supported mechanical and maintenance operations by assisting technicians with equipment inspection, troubleshooting, and preventive maintenance under direct supervision, completing 240 hours (30 working days) with zero procedural deviations.
- Authored narrative reports documenting internship activities, technical observations, and maintenance procedures, strengthening technical writing and structured recordkeeping.

Auditor

September 2024 – July 2026

Faculty of Engineering and Technology Student Council, VSU–Isabel Campus

- Audited financial and administrative records across 4 semesters spanning two consecutive terms as Auditor (2024–2026), verifying completeness, consistency, and accuracy against supporting documentation.
- Took full ownership of org-wide collection of member obligations during the treasurer's absence in my first term, uncovering incomplete submissions missing course/year details and manually reconciling records entry-by-entry to restore data accuracy.
- Redesigned the intake process based on that experience, standardizing required fields up front to prevent recurring documentation gaps — a fix that held through subsequent terms and contributed to re-election as Auditor for a second consecutive term.
- Applied systematic verification procedures to safeguard confidential financial and organizational data with consistent accountability throughout the two-year term.

SELECTED PROJECT EXPERIENCE

HIRAC Study – VSU–Isabel Campus

- Prepared and organized HIRAC documentation, assessment records, and project outputs for a workplace hazard identification and risk assessment study.
- Documented identified hazards, assigned risk ratings, and recorded existing controls and corrective measures across the assessed work areas.
- Structured assessment data into tables and reports and consolidated project materials with the team, ensuring accuracy and completeness for the faculty panel presentation.

VAWT Roadside Streetlight Prototype

- Owned project documentation for a Vertical Axis Wind Turbine (VAWT) roadside streetlight prototype, producing technical write-ups across design, fabrication, and testing phases.
- Organized and cross-checked testing results, measurements, and observations, ensuring data accuracy for the team's final report and capstone presentation.

CERTIFICATIONS & TRAINING

- DOLE-BWC Prescribed 40-Hour Basic Occupational Safety and Health (BOSH) Training for Safety Officer 2
1-OSH Mentor Safety Training Center Oct 28–Nov 1, 2024

TECHNICAL SKILLS

Microsoft Office: Excel, Word, Powerpoint

Google Workspace: Sheets, Docs, Drive, Forms

Engineering Software: AutoCAD (Basic/Academic)

Documentation & Data: Records Management, Data Entry, Data Verification, Technical Reporting

Other: Canva, Microsoft Copilot

EDUCATION

Bachelor of Science in Mechanical Engineering

Visayas State University – Isabel Campus, Isabel, Leyte | Graduated July 2026
